Wednesday, March 6

8 AM (first tee time)	Golf *	Anaheim Hills GC
2:00 – 5:00 PM	Registration & Information	Anabella Foyer
2:00 – 5:00 PM	Board of Directors Meeting	Doria
5:30 – 6:00 PM	President’s Reception (by invitation)	Gloriana
6:00 – 8:00 PM	Welcome Reception	Gloriana

Thursday, March 7

8:00 – 8:15 AM	Welcome Announcements and Continental Breakfast	Anabella A
8:15 – 8:30 AM	Antitrust Briefing with Mark Alcorn	Anabella A
8:30 – 10:00 AM	Navigating the Future of Artificial Intelligence With Sam Maury-Holmes (Beacon Economics)	Anabella A
10:00 – 10:15 AM	Break	
10:15 – 11:45 AM	Cyber Security is NOT Business as Usual with Will Snyder (WTC IT Services)	Anabella A
10:30 AM – 2:30 PM	Spouse/Guest Wellness Clinic and Lunch *	Doria / Jazz Kitchen
12:00 – 3:00 PM	Exhibitor Set-Up	Anabella B/C/D
	Lunch on own	
1:30 – 2:45 PM	Understanding Fastener Strength and Hardness with Carmen Vertullo (presented by FTI)	Anabella A
3:00 – 7:00 PM	Tabletop Show & Reception	Anabella B/C/D
	Dinner on own	

Friday, March 8

7:00 – 8:15 AM	Past President’s Breakfast	Doria
8:00 – 9:00 AM	Breakfast	Anabella A
8:30 – 10:00 AM	The 2024 Economic Outlook with Dr. Chris Thornberg (Beacon Economics)	Anabella A
10:00 – 10:15 AM	Break	
10:15 – 11:45 AM	Protect Your Profits – How to prevent the Most likely causes of rejections, with Carmen Vertullo	Anabella A
12:00 – 1:00 PM	Lunch	Anabella B
1:30 – 3:30 PM	Roundtable Discussions	Anabella C/D
7:00 PM	Anaheim Ducks vs. Dallas Stars Hockey (65 tickets) *	Honda Center

* Optional activities require additional registration and fees.

Antitrust Statement

It is the policy of Pacific-West Fastener Association and its members to comply with laws and regulations applicable to their activities.

Among other things, Pac-West members and leaders are subject to antitrust laws that prohibit fixing prices, allocating geographic markets, unfair or deceptive practices, setting profit levels; boycotts, and most other anticompetitive actions. Pac-West will neither permit nor condone anti-competitive behavior, whether willful or inadvertent, in connection with any Pac-West activity.

Additionally, discussion among two or more people that suggests intentional or unintentional fraudulent activity is illegal.

Conversations involving discussion of matters that may violate applicable laws and regulations should always be avoided, even in private settings, and cannot be tolerated in connection with any Pac-West meeting or activity. Persons engaging in possible violations of Pac-West policy during meetings or activities will be required to cease such activities, and if necessary, are subject to ejection by the presiding officer of the meeting.

Questions concerning antitrust or other laws or regulations connected to Pac-West activities should be referred immediately to the chief staff executive.

No Recordings

No audio, video, or other form of recording of any meeting (including member forums, informal meetings and gatherings, task forces, committee, and subcommittee meetings) of the corporation be permitted other than as may be authorized by the Board of Directors, in its sole discretion, by written resolution. In the event that a recording of a meeting is authorized, said recording shall be destroyed upon approval of the minutes of the meeting or one hundred (100) days, whichever is sooner, unless prohibited by law, court order, or written directive of the Board of Directors

HOW FASTENERS ARE MADE & THE COST DRIVERS BEHIND THIS ENGINEERING MARVEL

MAY 21, 2024 | 9:00 A.M. – 4:00 P.M. | CLEVELAND, OH | FASTENER FAIR USA

HOW FASTENERS ARE MADE & THE COST DRIVERS BEHIND THIS ENGINEERING MARVEL

In this all-day class, fastener expert Laurence Claus takes participants into the fastener manufacturing world and explores why the often under-appreciated components are complex engineering marvels.

Participants will gain a basic understanding of the different methods of producing fasteners: cold heading, hot heading and screw machining. Students will learn the advantages and disadvantages of each manufacturing method plus delve into many of the other steps, such as thread rolling, grinding, machining, heat treating and plating that the average fastener may undergo.

Students will learn how each of these different processes, as well as raw material and customer expectations, drive what may appear to be a routine run-of-the-mill fastener into a value-added powerhouse of a component.

Participants will recognize the cost drivers of value-added products, gain practical fastener knowledge and increase their professional value.

TOPICS COVERED:

- Production methods: cold heading, hot heading and screw machining
- Advantages and disadvantages of each manufacturing method
- Thread rolling, grinding, machining, heat treating and plating

WHO SHOULD ATTEND:

- Sales
- Engineering
- Quality Personnel
- Sourcing & Quoting Personnel
- Purchasing
- Marketing
- Management
- Anyone interested in learning more about fasteners

FASTENER TRAINING WEEK

AUGUST 19-23, 2024 | CHICAGO, IL

ACCELERATED TRAINING FOR THE FTI CERTIFIED FASTENER SPECIALIST™ (CFS) DESIGNATION

Fastener Training Week features case studies, learning labs, interactive exercises and quizzes to reinforce learning taught by leading industry experts. The content includes manufacturing processes, consensus standards, quality control and includes a day of plant tours of manufacturing, secondary processes and testing facilities.

Instead of seven separate one-day classes, Fastener Training Week offers five intensive days of education and plant tours as part of the acclaimed FTI Certified Fastener Specialist™ (CFS) advanced technical training program. After completing this invaluable industry training in a small group environment and passing a final exam, attendees are eligible for the Certified Fastener Specialist™ (CFS) designation.

WHO SHOULD ATTEND?

- Fastener distributors
- OEMs
- Engineers
- Fastener manufacturers
- Buyers
- Quality assurance professionals
- End users
- Sales professionals

TOPICS:

- Thread and material specifications
- Process and dimensional specifications
- Quality assurance systems and specifications
- Lot traceability and test reports
- Print reading and tolerances
- Thread gaging and dimensional inspection
- Torque tension

Plant tours will take place on the third day of training.

“The CFS program drastically shortened my learning curve regarding fastener specifications. The program materials were well organized and professional. Each instructor was very knowledgeable and infused the lesson topics with real world examples. CFS is a great program taught by excellent instructors.”

“This course helped me gain a solid understanding of mechanical engineering and develop the technical knowledge important to this field. It also makes me realize the complexities and challenges we face, and that makes the work even more interesting”.
